Dear Mr. Roosevelt:

This letter is in response to the Pre-Construction Notification (PCN) renewal request you submitted to the Wilmington District, Washington Regulatory Field Office, on December 29, 2024, for a Department of the Army Nationwide permit (NWP) verification. This project has been assigned the file number SAW-2015-01780. This file number should be referenced in all correspondence concerning this project.

A review of the information provided indicates that the proposed work would include the construction and installation of 28 water control structures within existing perimeter ditches, including sheetpile box weir structures and aluminum culvert standpipes with flashboard risers and stacking system. The project area for this determination includes a 14,473 acre(s) area which is illustrated on the enclosed site plans/maps. The project/review area is located at/or near 1557 Gall Road, adjacent to New Lake and Rutman Creek, at Latitude 35.650325 and Longitude -76.423164; near the Community of Leechville, Hyde County, North Carolina. Parcel PIN 7760-32-6187. Deed Book 303. Page 271 (7).

We have determined that the proposed work is authorized by Nationwide Permit No. 27 pursuant to authorities under Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. § 403) and Section 404 of the Clean Water Act (33 U.S.C § 1344). The proposed work must be accomplished in strict accordance with the general permit conditions, any regional conditions, the application materials, and the enclosed plans. If the extent of the project area and/or nature of the authorized impacts to waters are modified, a revised PCN must be submitted to this office for written approval before work is initiated. Any violation of permit conditions or deviation from your submitted plans may subject the permittee to enforcement action.

This verification is valid until March 14, 2026, unless prior to this date the subject NWP(s) is suspended, revoked, or is modified such that the activity no longer complies with the terms and conditions of this NWP. If you commence or are under contract to commence this activity before the date that the relevant NWP is modified or revoked,

you will have 12 months from the date of the modification or revocation of the NWP to complete the activity under the present terms and conditions of this NWP.

Activities subject to Section 404 (as indicated above) may also require an individual Section 401 Water Quality Certification. You should contact the NC Division of Water Resources (telephone 919-807-6300) to determine Section 401 requirements.

For activities occurring within the twenty coastal counties subject to regulation under the Coastal Area Management Act (CAMA), prior to beginning work you must contact the N.C. Division of Coastal Management in Washington, NC, at (252) 946-6481.

This NWP verification does not preclude the necessity to obtain any other Federal, State, or local permits, licenses, and/or certifications, which may be required.

If you have any questions related to this verification or have issues accessing documents referenced in this letter, please contact Mr. Raleigh W. Bland, Regulatory Project Manager of the Washington Regulatory Field Office, at 910-261-4564, by mail at the above address, or by email at [Raleigh.w.bland@usace.army.mil](mailto:Raleigh.w.bland@usace.army.mil). Please take a moment to complete our customer satisfaction survey located at <https://regulatory.ops.usace.army.mil/customer-service-survey/>.
