Multi-Unit Dwelling	Yes	\$4,000	or	80%
Multi-Unit Dwelling	No	\$3,000	or	60%

## Project Details

Please provide a detailed description of the proposed project. Describe procurement, installation, activation/commissioning, testing, and signage. Describe collaborations with interested utilities, local businesses, cities, counties, or other entities. Describe sustainable business model for this project. Describe customer support service accessibility. Describe networking security for both payment and data capture.

*Merridian Apartments Raleigh is a multifamily community near downtown Raleigh. The electric chargers will have dual ports and be accessible to the public at all times. Code Electric has provided us with a quote to obtain the required electric capabilities and we are partnering with Duke Energy to get these chargers installed for residents as well as our community. The Novacharge Dual Gateway + Client 7.68 KW EV Chargers includes network connectivity capabilities and will have 24/7 customer support through EV Direct and Duke Energy. We have asked for additional 'make-ready infrastructure' for easy expansion options. Marketing and signage will be placed to show the easily accessible chargers and make these available to the public. EV Direct will provide a network specifically for the chargers and provides a secure administrative channel for in-band communications with flexible access via mobile app.*

**Certification**

The undersigned is an official authorized to represent the applicant. The person that submitted this document in the DAQ Grants Management System has the authority to legally bind the applicant or be the designated fiscal agent. The application was electronically signed in the DAQ Grants Management System when submitted by the applicant.

*I certify that all proposed activities will be carried out; that all money received will be utilized solely for the purposes for which it is intended; that records documenting the planning process and implementation will be maintained and submitted when requested, and DEQ is hereby granted access to inspect project sites and/or records. It is understood that if this project is selected a contract with DEQ will be executed.*
