

1 15A NCAC 07J .1402 is proposed for adoption as follows:  
2

3 **15A NCAC 07J .1402 APPLICATION PROCESSING**

4 (a) On receipt of a CAMA major development and/or dredge and fill permit application that complies with the form  
5 and includes the content required in 15A NCAC 07J .1400 and .1401, the Department shall send a notification to the  
6 applicant acknowledging receipt of a complete application and begin processing the application.

7 (b) If the Division of Coastal Management finds that additional information is necessary to complete its investigation  
8 of the proposed development to determine whether a permit application shall be approved or denied, the Division shall  
9 request that additional information from the applicant.

10 (c) If the Division of Coastal Management finds an application is incomplete or contains inaccurate information after  
11 processing has begun, the Division shall notify the applicant of the deficiency or inaccuracy and request the applicant  
12 provide the required information.

13 (d) In order to determine the environmental impact of the proposed project, the Department shall prepare a field report  
14 on each major development and/or dredge and fill permit application accepted for processing. Such report shall be  
15 prepared after an on-site investigation is completed. The report shall include project location, environmental setting,  
16 project description and probable environmental impact.
