

CRC-25-35

August 13, 2025

MEMORANDUM

TO: Coastal Resources Commission

FROM: Cameron Luck

SUBJECT: Periodic Review of 15A NCAC 07A, 15A NCAC 07H, 15A NCAC 07I, 15A NCAC 07J, 15A NCAC 07K, 15A NCAC 07L, and 15A NCAC 07M

The General Assembly's 2013 legislation (Session Law 2013-413) added the "Periodic Review and Expiration of Existing Rules" provision to the Administrative Procedure Act (G.S. §150B-21.3A). This provision requires state agencies to review all of their rules on a ten-year cycle, following a process and schedule established by the Rules Review Commission (RRC). Prior to this law, rules did not expire. Under the current statute, any rule that is not reviewed and readopted according to the required process will automatically expire unless it is mandated by federal law.

The first step in the process is for the agency to examine each of its rules and classify it as either "necessary" or "unnecessary." According to 15B-21.3A, an unnecessary rule is one determined by an agency to be obsolete, redundant, or otherwise no longer required. A necessary rule is any rule that has not been determined to be unnecessary. The complete list of these classifications is then provided to Office of Administrative Hearings (OAH) and must be posted on the website of both OAH and DCM for at least sixty days, during which public comments will be accepted.

Following the comment period, the CRC's final report, which must include 1) the agency's initial determination, 2) all received public comments, and 3) the agency's response to these comments, must be submitted to the RRC. The RRC may agree or disagree with the classifications and can reclassify any rule as necessary, though it cannot declare a rule unnecessary. The RRC's determination is then forwarded to the Joint Legislative Administrative Procedure Oversight Committee (JLAPOC), whose review triggers the final determination. The CRC has the opportunity to meet with JLAPOC to consult on any changes made by the RRC. However, if JLAPOC does not meet within 60 days of receiving the final determination report, the determination takes effect automatically on the 61st day after receipt. At that point, any rule classified as unnecessary and not reclassified will expire and be removed from the administrative Code. Rules classified as necessary will remain in effect temporarily but must be readopted

through the standard permanent rulemaking process. The RRC, in consultation with the CRC, will set the readoption schedule, and amendments may be made during that process. For this current review cycle, DCM has received reports from Office of Administrative Hearings (OAH) for subchapters 15A NCAC 07A, 15A NCAC 07H, 15A NCAC 07I, 15A NCAC 07J, 15A NCAC 07K, 15A NCAC 07L, and 15A NCAC 07M and have provided a staff classification of necessary or unnecessary for CRC review. The attached initial reports are ready for the CRC to review and approve. Once approved, the reports will be submitted to OAH as described above and will be posted to both the DCM and OAH website for public notice in accordance with the requirements outlined in 150B-21.3A.

This report is scheduled for review by the RRC at their August 2026 meeting. In order to meet this deadline the CRC must take action on classifying your rules as “necessary” or “unnecessary” either at this meeting or at your November meeting so that the public comment period and adoption process can happen in time to file the rules with the Office of Administrative Hearings by July 20, 2026.

We look forward to discussing the periodic review of your rules at the August CRC meeting.
