

Re: Lake Mattamuskeet IntraService Section 7 Outfall/Central Canal Reach 1

From Wells, Emily J <emily_j_wells@fws.gov>

Date Thu 7/31/2025 10:05 AM

To Archambault, Jennifer M <jennifer_archambault@fws.gov>

Cc Smith, Kendall <kendall_smith@fws.gov>; Mann, Leigh <leigh_mann@fws.gov>

Thank you Jennifer!

This will work fine as I can save the email in our files for the record. I am not sure what is going on with the locking of the document, but I will try to see what I can do about that moving forward.

Appreciate your time and assistance as always!

Thank you,
Emily

Subject: Re: Lake Mattamuskeet IntraService Section 7 Outfall/Central Canal Reach 1

Good morning — please see my concurrence, attached. Thanks for your patience in my response while managing an unsustainably high workload. I've added Leigh so that she can log the project in ECOSphere and for our administrative record.

My signature for concurrence is on the attached file dated 20250731. Similar to a previous IntraService request, I was unable to edit the document after it was signed by Kendall. In the absence of my ability to add a checkmark next to the concurrence selection on the form and the lack of adding my station

and title on the form, please consider this email my concurrence with the determinations made on the form. This works fine for my recordkeeping if it suits yours. If you'd like to submit an updated form that allows editing, I'd be happy to re-sign.

All the best,
Jennifer

Subject: Lake Mattamuskeet IntraService Section 7 Outfall/Central Canal Reach 1

Hi Jennifer,

Here are the documents to support our request for concurrence for the Outfall/Central Canal Reach 1 dredging and material placement project on Mattamuskeet Refuge lands in the designated Disposal Areas and within MI-6, which is a man made managed impoundment on the Refuge.

I have also attached the NC Natural Heritage Data Explorer report for this specific area. NCWRC will be doing their own Environmental Compliance for their reaches at a later date since these areas have separate property owners and separate funding sources. This project is not starting on the ground work anytime soon, just wanted to go ahead and wrap up our portion of the compliance.

On another note, I am still gathering some additional information from the Refuge folks on the Bear Hunt Section 7 for Pocosin Lakes, so that will be the next one coming later next week probably.

Please let me know if you have any questions.

Thank you!
Emily
