Subject: RE: [Non-DoD Source] RE: [External] FW: Coastal Consistency Determination: Range Operations Update

Good Morning,

DCM is in receipt of your October 2, 2026 email requesting a pause in North Carolina's review (through NC Division of Coastal Management - DCM) of the MCAS Cherry Point's Consistency Determination. The Consistency Determination document was initially received by DCM on August 20, 2026. Forty-three days have elapsed of the 60 review days provided for in 15 CFR 930.41(a). Once we receive communication from you to "un-pause" the review time, there will be 17 days remaining in the initial review period. For the record, DCM has not yet requested the available 15-day extension provided in 15 CFR 930.41(b).

DCM understands MCAS Cherry Point is finalizing additional documentation beneficial to DCM's review, and that you intend to schedule a meeting with DCM after that documentation is available. DCM held a public meeting regarding MCAS Cherry Point's proposal and a copy of the recorded audio from that meeting is being made available. At the time of this email, DCM has received 15 public comments regarding the CD and will be hosting the submitted comments and project information on our website. That link will be provided to you once it is live. DCM also plans to reach out to stakeholders after you've provided additional information, specifically about the timing and duration of closures so we can get feedback based on this additional information, possibly including another public hearing. Because of this, DCM would appreciate an agreed upon time of 3-day notice prior to "no-passing" the review to allow time for DCM to initiate this public comment period.

Please provide confirmation of receipt of this email and let DCM know if Cherry Point is willing to provide 3-days advanced notice prior to un-passing the consistency determination.

Best,

Cameron Luck

MCAS Cherry Point would like to request a "pause" in your review of the Coastal Consistency Determination for this project. We are finalizing additional documentation that we feel would be beneficial to your review. Once that documentation is complete, we will reach out to schedule a meeting to review.

Thanks for the call today!

R/S,

Jessica Gaglianelli

 Determination: Range Operations Update

Good Afternoon Stephanie,

Just wanted to let you and your colleagues know that DCM has scheduled a public hearing for this Consistency Determination to get public comment on the proposed action.

[illegible]

Let me know if you have questions.

Best,

Cameron Luck
