

List of Figures

Figure II-1. Coastal Carolina Geography.....	II-5
Figure II-2. Wave and Climate Recording Data Stations	II-7
Figure II-3. Tide Variations (After NOAA Tide Tables).....	II-8
Figure II-4. NOAA/USACE Tide Station Locations	II-10
Figure II-5. Tidal Shoal System (USACE Coastal Engineering Manual, 2008)	II-11
Figure II-6. Typical Beach Profile – Illustrates Influence of Water Level	II-12
Figure II-7. Sea-Level Rise at Beaufort, N.C.	II-13
Figure II-8. Atlantic Hurricane Tracks (1851-2007)	II-19
Figure II-9. Tubbs Inlet Historical Shorelines	II-22
Figure II-10. Beach Profile Locations	II-27
Figure II-11. Geologic Provinces of North Carolina	II-29
Figure II-12. Geologic Provinces of Onslow and Long Bays.....	II-30
Figure II-13. Sand Rich and Sand Poor Barriers	II-31
Figure II-14. North Carolina Inlet Locations	II-33
Figure II-15. Identified Potential Sand Resources	II-35
Figure II-16. Beach Nourishment Project Locations	II-37
Figure II-17. USACE Dredge Project Locations (1975-2007)	II-39
Figure II-18. Mason Inlet Relocation	II-41
Figure II-19. Masonboro Inlet Jetties (May 2002 – USACE)	II-42
Figure II-20. Northern Carolina Beach.....	II-43
Figure II-21. Example of Sandbags Used as Temporary Erosion Control Structures at South Nags Head	II-43
Figure II-22. Terminal Groin at Oregon Inlet.....	II-44
Figure II-23. Relocation of the Cape Hatteras Lighthouse	II-45
Figure II-24. ADCIRC Model Grid	II-47
Figure II-25. Ocean Hazard Areas in the Vicinity of Shallotte Inlet	II-49
Figure II-26. Example of NCGS Overwash Risk Due to Storms at Ocean Isle	II-53
Figure II-27. Example of Coastal Vulnerability Index (2001) to Sea Level Rise at Ocean Isle.....	II-55
Figure II-28. Coastal Vulnerability Index (2004) for Cape Hatteras National Seashore.....	II-57
Figure II-29. Erosion “Hotspots” Identified by NCDOT Outer Banks Task Force.....	II-59
Figure II-30. Inlet Opening Potential Taken from Mallinson, <i>et al.</i> (2008) and Pilkey. <i>et al.</i> (1998).....	II-62
Figure II-31. Sediment Budget at an Inlet	II-62
Figure III-1. Historic Areas and Properties.....	III-22
Figure IV-1. Location of Counties Analyzed for Property Impacts in Bin <i>et al.</i> (2007)	IV-3
Figure IV-2. Example of data used in Bin <i>et al.</i> (2007) property value study.....	IV-5
Figure IV-3. Location of North Carolina Shore and Pier Fishing Sites.....	IV-17
Figure V-1. Coastal Geologic Provinces of North Carolina	3
Figure V-2. Four Main Regions and the Capes	4
Figure V-3. Prograding and Retrograding Shorelines (Cleary, 2008)	5
Figure V-4. Barrier and Headland Features (Cleary, 2008).....	6
Figure V-5. Geologic Provinces of Onslow and Long Bays (Cleary, 2008)	7

Figure V-6. Shoreline Development Status Along the North Carolina Coast	8
Figure V-7. DCM Long Term Erosion Rates Along the North Carolina Coast	9
Figure V-8. Known Sediment Resources Along the North Carolina Coast.....	9
Figure V-9. Delineation of BIMP Sub-regions.....	10
Figure VII-1. BIMP Project Website (www.ncbimp.net).....	VII-5
Figure VII-2. Photos Documenting First Round of Public Information and Input Meetings	VII-7
Figure VII-3. Photos Documenting Second Set of Public Meetings	VII-9
Figure VIII-1. Region 1 Boundaries	VIII-1
Figure VIII-2. Representative Wind and Wave Roses from WIS Station 310	VIII-3
Figure VIII-3. Wave and Water Level Stations for Region 1	VIII-6
Figure VIII-4. Sea Level Rise at Beaufort, NC	VIII-7
Figure VIII-5. Expected Return Period of Hurricanes.....	VIII-8
Figure VIII-6. Atlantic Storm and Hurricane Tracks for Region 1	VIII-9
Figure VIII-7. NCDCEM Erosion Rates for Region 1.....	VIII-12
Figure VIII-8. Beach Profile Monitoring Locations for Region 1	VIII-14
Figure VIII-9. Offshore Geology for Region 1.....	VIII-16
Figure VIII-10. Sunset Beach, Mad Inlet (closed), and Tubbs Inlet (Cleary, 2008)	VIII-17
Figure VIII-11. Example of Parabolic Dune Core on Ocean Isle (Cleary, 2008).....	VIII-18
Figure VIII-12. Shallotte Inlet: 2003 (left), 2008 (right)	VIII-20
Figure VIII-13. Former Inlet Zones and Changing Alignment of Ebb Channel (Cleary, 2008)	VIII-21
Figure VIII-14. Lockwoods Folly Inlet with Holden Beach Erosion and Oak Island Accretion (Cleary, 2008)	VIII-22
Figure VIII-15. Oak Island, Comprised of Long Beach Spit and Caswell Beach Spit.....	VIII-23
Figure VIII-16. Cape Fear River Inlet Channel Realignment (Cleary, 2008)	VIII-26
Figure VIII-17. Bald Head Island Beaches (Cleary, 2008).....	VIII-27
Figure VIII-18. Cape Fear River Inlet Detailed Sediment Budget Cells	VIII-28
Figure VIII-19. Potential Sediment Resources for Region 1	VIII-30
Figure VIII-20. Sample Environmental Considerations for Region 1	VIII-39
Figure VIII-22. Number of Dredge Projects – Region 1 by Project Size	VIII-47
Figure VIII-24. Potential Sediment Resources for Region 1	VIII-51
Figure IX-1. Region 2a Boundaries	IX-1
Figure IX-2. Region 2b Boundaries.....	IX-3
Figure IX-3. Region 2c Boundaries	IX-5
Figure IX-4. Representative Wind and Wave Roses from Station 302 (Region 2a)	IX-7
Figure IX-5. Representative Wind and Wave Roses from Station 290 (Region 2b)	IX-8
Figure IX-6. Representative Wind and Wave Roses from Station 275 (Region 2c)	IX-9
Figure IX-7. Wave and Water Level Stations for Region 2a.....	IX-11
Figure IX-8. Wave and Water Level Stations for Region 2b.....	IX-12
Figure IX-9. Wave and Water Level Stations for Region 2c.....	IX-13
Figure IX-10. Sea Level Rise at Beaufort, N.C.	IX-14
Figure IX-11. Expected Return Period of Hurricanes	IX-16
Figure IX-12. Atlantic Storm and Hurricane Tracks for Region 2a	IX-17
Figure IX-13. Atlantic Storm and Hurricane Tracks for Region 2b	IX-18

Figure IX-14. Atlantic Storm and Hurricane Tracks for Region 2c	IX-19
Figure IX-15. DCM Erosion Rates for Region 2a	IX-25
Figure IX-16. DCM Erosion Rates for Region 2b	IX-26
Figure IX-17. DCM Erosion Rates for Region 2c	IX-27
Figure IX-18. Beach Profile Monitoring Locations for Region 2a	IX-29
Figure IX-19. Beach Profile Monitoring Locations for Region 2b	IX-30
Figure IX-20. Beach Profile Monitoring Locations for Region 2c	IX-31
Figure IX-21. Offshore Geology for Region 2a	IX-33
Figure IX-22. Fort Fisher and Kure Beach (Cleary, 2008)	IX-35
Figure IX-23. Carolina Beach Mainland and Extension (Cleary, 2008)	IX-36
Figure IX-24. Masonboro Island Washover (Post-Hurricane Fran) (Cleary, 2008)	IX-37
Figure IX-25. Masonboro Inlet Jetties (Cleary, 2008)	IX-38
Figure IX-26. Mason Inlet Relocation Efforts (Cleary, 2008)	IX-41
Figure IX-27. Figure Eight Island (Cleary, 2008)	IX-42
Figure IX-28. Offshore Geology for Region 2b	IX-43
Figure IX-29. Closing of Old Topsail Inlet to Form Hutaff Island (formerly Hutaff and Lea Island) (Cleary, 2008)	IX-44
Figure IX-30. New Topsail Inlet (Cleary, 2008)	IX-45
Figure IX-31. Topsail Island - Comprised of Topsail Beach, Surf City, and North Topsail Beach (Cleary, 2008)	IX-47
Figure IX-32. New River Inlet and Associated Erosion/Accretion Effects (Cleary, 2008)	IX-53
Figure IX-33. Brown’s Inlet, Brown’s Island, Bear Inlet, and Bear Island (Cleary, 2008)	IX-56
Figure IX-34. Offshore Geology for Region 2c	IX-57
Figure IX-35. Bogue Inlet Ebb Channel Realignment (Cleary, 2008)	IX-59
Figure IX-36. Beaufort Inlet (Cleary, 2008)	IX-61
Figure IX-37. Barden Inlet (Cleary, 2008)	IX-62
Figure IX-38. Available Sediment Budgets for Region 2a	IX-64
Figure IX-39. Available Sediment Budgets for Region 2c	IX-65
Figure IX-40. Average Annual Longshore Transport Potential, Beaufort Inlet (Olsen Associates, 2006)	IX-66
Figure IX-41. Model Predicted Seasonal and Annual Longshore Sediment Transport (Park and Wells, 2007)	IX-67
Figure IX-42. Model Predicted Longshore Current and Sediment Transport Rates (Park and Wells, 2005)	IX-68
Figure IX-43. Potential Sediment Resources for Region 2a	IX-70
Figure IX-44. Potential Sediment Resources for Region 2b	IX-71
Figure IX-45. Potential Sediment Resources for Region 2c	IX-72
Figure IX-47. Sample Environmental Considerations for Region 2a	IX-80
Figure IX-48. Sample Environmental Constraints for Region 2b	IX-87
Figure IX-49. Sample Environmental Considerations for Region 2c	IX-95
Figure IX-50. Number of Nourishment Projects – Region 2a by Project Size	IX-105
Figure IX-51. Number of Nourishment Projects – Region 2b by Project Size	IX-106
Figure IX-52. Number of Nourishment Projects – Region 2c by Project Size	IX-107
Figure IX-53. Number of Dredge Projects – Region 2a by Project Size	IX-110

Figure IX-54. Number of Dredge Projects – Region 2b by Project Size	IX-111
Figure IX-55. Number of Dredge Projects – Region 2c by Project Size	IX-113
Figure IX-56. Historical Management Strategies for Region 2a	IX-115
Figure IX-57. Historical Management Practices for Region 2b	IX-116
Figure IX-58. Historical Management Practices for Region 2c.....	IX-117
Figure IX-59. Potential Sediment Resources for Region 2a.....	IX-120
Figure IX-60. Potential Sediment Resources for Region 2b.....	IX-121
Figure IX-61. Potential Sediment Resources for Region 2c.....	IX-122
Figure X-1. Region 3a Boundaries	X-1
Figure X-2. Region 3b Boundaries	X-3
Figure X-3. Wind and Wave Roses from WIS Station 270 (Region 3a)	X-5
Figure X-4. Wind and Wave Roses from Representative WIS Station 263 (Region 3b)	X-6
Figure X-5. Wave and Water Level Stations for Region 3a	X-8
Figure X-6. Wave and Water Level Stations for Region 3b.....	X-9
Figure X-7. Sea Level Rise at Beaufort, NC	X-10
Figure X-8. Expected Return Period of Hurricanes.....	X-12
Figure X-9. Atlantic Storm and Hurricane Tracks for Region 3a.....	X-13
Figure X-10. Atlantic Storm and Hurricane Tracks for Region 3b	X-14
Figure X-11. DCM Erosion Rates for Region 3a	X-18
Figure X-12. DCM Erosion Rates for Region 3b	X-19
Figure X-13. Beach Profile Monitoring Locations for Region 3a	X-20
Figure X-14. Beach Profile Monitoring Locations for Region 3b.....	X-21
Figure X-15. Geomorphic Mapping Example - Cape Lookout National Seashore	X-24
Figure X-16. Geomorphic Mapping Example - Ocracoke Island.....	X-27
Figure X-17. Available Sediment Budgets for Region 3a	X-29
Figure X-18. Predicted Net Longshore Sediment Transport and Pathways (Park and Wells, 2005)	X-30
Figure X-19. Longshore Transport at Cape Lookout (Park and Wells, 2005).....	X-31
Figure X-20. Potential Sediment Resources for Region 3a	X-33
Figure X-21. Potential Sediment Resources for Region 3b.....	X-34
Figure X-22. Sample Environmental Considerations for Region 3a	X-38
Figure X-23. Sample Environmental Considerations for Region 3b.....	X-43
Figure X-26. Number of Nourishment Projects – Region 3b by Project Size	X-51
Figure X-27. Number of Dredge Projects – Region 3a by Project Size	X-53
Figure X-28. Number of Dredge Projects – Region 3b by Project Size	X-54
Figure X-24. Historical Management Strategies for Region 3a.....	X-55
Figure X-25. Historical Management Practices for Region 3b.....	X-56
Figure XI-1. Region 4a Boundaries	XI-1
Figure XI-2. Region 4b Boundaries.....	XI-3
Figure XI-3. Region 4c Boundaries	XI-5
Figure XI-4. Wind and Wave Roses from Representative WIS Station 228 (Region 4a)	XI-7
Figure XI-5. Wind and Wave Roses from Representative WIS Station 222 (Region 4b).....	XI-8
Figure XI-6. Wind and Wave Roses from Representative WIS Station 216 (Region 4c).....	XI-9
Figure XI-7. Wave and Water Level Stations for Region 4a.....	XI-11

Figure XI-8. Wave and Water Level Stations for Region 4b.....	XI-12
Figure XI-9. Wave and Water Level Stations for Region 4c.....	XI-13
Figure XI-10. Sea Level Rise at Beaufort, NC	XI-14
Figure XI-11. Expected Return Period of Hurricanes	XI-16
Figure XI-12. Atlantic Storm and Hurricane Tracks for Region 4a	XI-17
Figure XI-13. Atlantic Storm and Hurricane Tracks for Region 4b	XI-18
Figure XI-14. Atlantic Storm and Hurricane Tracks for Region 4c	XI-19
Figure XI-15. DCM Erosion Rates for Region 4a	XI-23
Figure XI-16. DCM Erosion Rates for Region 4b.....	XI-24
Figure XI-17. DCM Erosion Rates for Region 4c	XI-25
Figure XI-18. Beach Profile Monitoring Locations for Region 4b.....	XI-27
Figure XI-19. North Carolina’s Paleodrainage System (Riggs <i>et al.</i> , 1995, Boss and Hoffman, 2001)	XI-29
Figure XI-20. Geomorphic Mapping Example - Bodie Island	XI-30
Figure XI-21. Geologic Framework for Region 4b	XI-34
Figure XI-22. Available Sediment Budgets for Region 4b.....	XI-36
Figure XI-23. Potential Sediment Resources for Region 4a.....	XI-38
\Figure XI-24. Potential Sediment Resources for Region 4b.....	XI-39
Figure XI-25. Potential Sediment Resources for Region 4c.....	XI-40
Figure XI-26. Sample Environmental Considerations for Region 4a.....	XI-44
Figure XI-27. Sample Environmental Considerations for Region 4b.....	XI-51
Figure XI-28. Sample Environmental Constraints for Region 4c.....	XI-55
Figure XI-31. Number of Dredge Projects – Region 4b by Project Size.....	XI-65
