

Applying for NCG01/25 coverage through AccessDEQ Portal

WOW Webinar

October 15, 2025

Department of Environmental Quality

NCG010000/NCG250000

The NPDES Construction Stormwater Program applies to construction activities that disturb one acre or more or are part of a common plan of development of that size.

- The [NCG01 Permit](#) applies when projects are subject to the [DEMLR Sediment Program](#).
- The [NCG25 Permit](#) applies when projects are not subject to the DEMLR Sediment Program but are subject to the federal Clean Water Act.

New eNOI System - AccessDEQ

New NCG01 eNOI System Launched in May 2025

Please check [this website for status updates](#) on the new NCG01 application in AccessDEQ, launched on May 12, 2025.

How to Apply for a Certificate of Coverage

Complete the [e-NOI form](#) (Now AccessDEQ Link).

2

Transfer Permit

Submit a New Application

The following questions will help determine which application questions will be asked during the application process. In most cases, an Erosion and Sediment Control Certificate of Approval and an NCG01 Construction Stormwater Certificate of Coverage are necessary for a project.

Select the option that best describes your scenario: *

- ☐ My project has received Erosion & Sedimentation Control Plan Approval from a **local program**, but now I need to apply for coverage under the NCG01 Stormwater General Permit from DEQ.
- ☐ My project is not subject to the Sedimentation Pollution Control Act, but it is subject to the US Clean Water Act, and I need coverage under the NCG25 Stormwater General Permit (very limited scenarios).
- ☒ My project has received Erosion & Sedimentation Control Plan Approval from **DEQ**, but now I need to apply for coverage under the NCG01 Stormwater General Permit from DEQ.
- ☐ Transfer ownership of existing NCG01 or NCG25 Stormwater General Permit coverage

Note: Stormwater discharges from **construction activities associated with oil and gas exploration, production, processing, treatment, or transmission facilities** are eligible for the exemption from NPDES permit coverage except in very limited instances. Do not proceed with this application before consulting this [EPA Fact Sheet](#) and verifying a permit applies.

For example, if you are a preparer or consultant, you can share the application with a responsible official that has the authority to sign and submit the application.

 Add

Email Address	Role(s)	Status Reason	Initiating Contact

User Roles

Important information about User Roles to help you prepare and/or submit an application (specific to NCG01 or NCG25 NPDES Construction Stormwater):

Responsible Official (RO) is defined as the representative with the authority to be the primary decision-maker for the property or business function.

- Signature Authority
- This role is responsible and accountable for compliance.
- Ability to Prepare/Submit applications, modifications, data/reports and pay fees (see individual rules for the program).
- Examples: Owner, Operator, Plant Manager, Corporate Officer, Elected Official, LLC owner/operator, etc.

User Roles

Delegated Responsible Official (DRO) is defined as a duly Authorized Representative **within the RO's organization** who has been given specific powers/authority to act on the behalf of the RO.

Delegation of duties to the Authorized Representative must be approved in advance and documented. This process takes place during the application procedure at the signing step. To indicate that you are a Delegated Responsible Official, follow these steps: request approval, print the Delegation of Signature Authority (DOSA) form, and mail the **wet-signed paper copy of the DOSA form** to the Stormwater Program per the instructions. Please note that the paper copy only needs to be submitted once for each Delegated Responsible Official within a specific organization.

- Signature Authority
- This role can submit applications and compliance reports.
- Federal permits (like NCG01/NCG25) must have the DROs be a part of their organization.
- Ability to Prepare/Submit applications, modifications, notice of terminations (NOTs), data/reports, and pay fees (see individual rules for the program).
- Examples: Public Works Director, High Ranking Official, etc.

User Roles

Preparer is defined as someone that prepares permit applications or compliance reports on behalf of the DRO or RO.

- This role does not have the authority to submit applications or compliance reports.
- Can pay fees on behalf of the DRO or RO once an application has been submitted by the RO/DRO.
- Examples: Consultant, Agent, Contractor, etc.

40 CFR 122.22

◉ § 122.22 Signatories to permit applications and reports (applicable to State programs, see § 123.25).

(a) *Applications.* All permit applications shall be signed as follows:

(1) *For a corporation.* By a responsible corporate officer. For the purpose of this section, a responsible corporate officer means:

- (i) A president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy- or decision-making functions for the corporation, or
- (ii) the manager of one or more manufacturing, production, or operating facilities, provided, the manager is authorized to make management decisions which govern the operation of the regulated facility including having the explicit or implicit duty of making major capital investment recommendations, and initiating and directing other comprehensive measures to assure long term environmental compliance with environmental laws and regulations; the manager can ensure that the necessary systems are established or actions taken to gather complete and accurate information for permit application requirements; and where authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures.

Note: EPA does not require specific assignments or delegations of authority to responsible corporate officers identified in § 122.22(a)(1)(i). The Agency will presume that these responsible corporate officers have the requisite authority to sign permit applications unless the corporation has notified the Director to the contrary. Corporate procedures governing authority to sign permit applications may provide for assignment or delegation to applicable corporate positions under § 122.22(a)(1)(ii) rather than to specific individuals.

40 CFR 122.22

- (2) *For a partnership or sole proprietorship.* By a general partner or the proprietor, respectively; or
- (3) *For a municipality, State, Federal, or other public agency.* By either a principal executive officer or ranking elected official. For purposes of this section, a principal executive officer of a Federal agency includes:
 - (i) The chief executive officer of the agency, or
 - (ii) a senior executive officer having responsibility for the overall operations of a principal geographic unit of the agency (e.g., Regional Administrators of EPA).
