# WSWP Rules are Moving!

2B .0100 & .0200  
WQ Standards

2B .0600  
WQ Management Plans

## Proposed WSWP Rules

- 2B .0620 Purpose
- 2B .0621 Definitions
- 2B .0622 Applicability & Effective Dates
- 2B .0623 Program Administration
- 2B .0624 Nonpoint Source & Stormwater Pollution Control

## Key Revisions - 2B .0620 Purpose

- New language
- References WS classification standards in 2B .0200

## Key Revisions - 2B .0621 Definitions

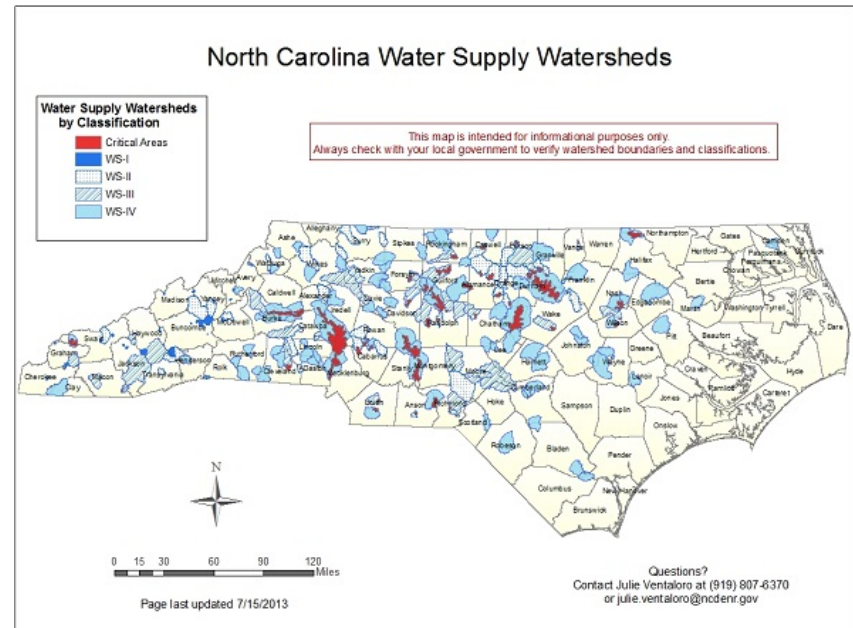

- New definitions for frequently-used terms
- Update definition of Built-Upon Area - #57 stone
- Codify method for calculating variance to vegetated setback

# Key Revisions – 2B .0622 Applicability & Effective Dates

- Updated references to NC DOT permit & NC Forest Service Guidelines.

## Key Revisions - 2B .0623 Program Administration

- Clarify that local gov't can outsource SCM inspections.
- Clarify process for local gov't submission of ordinance changes.
- List sources that can be used to “approximate normal pool elevation.”

## Key Revisions – 2B .0624 Stormwater Control

- Updates to match 2H .1000 SW Rules & MDC
  - Runoff volume match
  - Curb outlet swales
  - SCMs other than wet ponds
- Organize current BUA/density req'ts into a single table.

## Key Revisions – 2B .0624 Stormwater Control

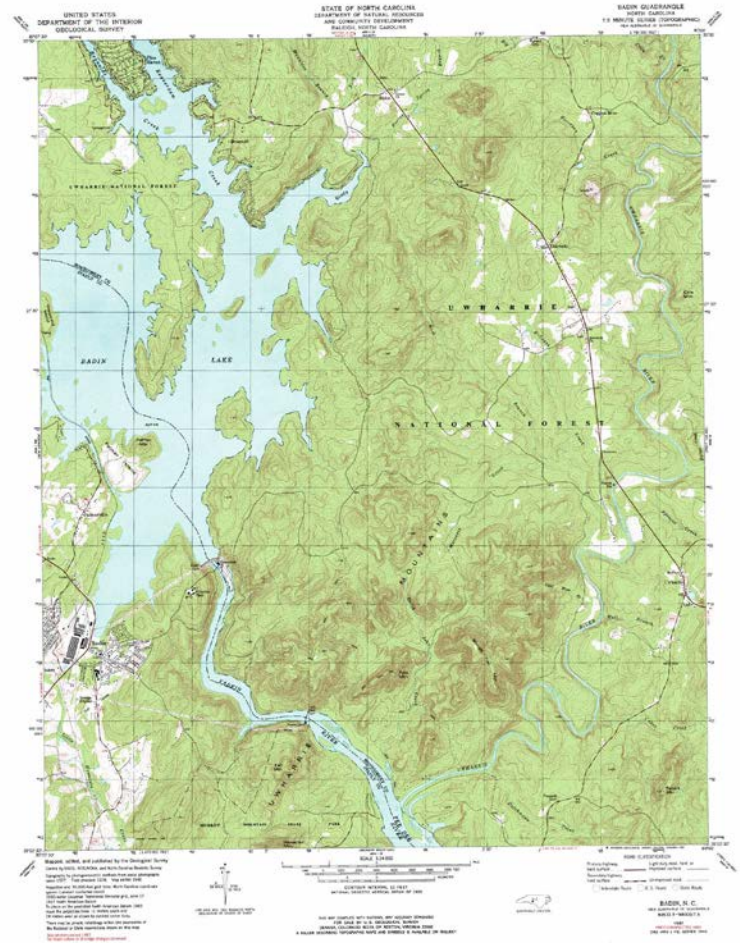

- Exempt expansion of SF residential development.
- Allow BUA criteria for SF residential development.

# Key Revisions – 2B .0624 Stormwater Control

- Allow stream determinations where USGS maps do not distinguish b/w intermittent and perennial.

## Key Revisions – 2B .0624 Stormwater Control

- **No change** to exemption for projects in **WS-IV** that don't require an E & SC Plan.

## Public Comment Period open thru **July 2, 2018**
