

## **Education Program Status Report**

### ***Presentations/Exhibits***

Exhibited at and handed out educational materials at the Wake County Green School's Partnership Kick-Off, an event for educators, on 3/9/2020. Enviroscape model presented.

### ***Workshops***

The 2020 Local Program Workshop and Awards Luncheon has been postponed and will hopefully be held, in person or online, in August 2020. This workshop is being planned in cooperation with the Water Resources Research Institute (WRI).

### ***Updates***

Collaborated with the other DEQ Environmental Educators to create a distance learning web page featuring DEQ's education content that is distance learning compatible. Created a high school questionnaire sheet to accompany the Student Information Packet as part of the distance learning initiative.

The E&SC website pages are continuously being updated as needed.

If you have any suggestions or would like to write an article for future issues of the biannual Sediments newsletter, email the education specialist.
