

Proposed Program

The SWO will be issued by the Chief Engineer at the recommendation of the State Roadside Environmental Engineer. Concurrently, the State Roadside Environmental Engineer will notify the Director of the Division of Land Resources with a written notice of intent to request the SWO. When a SWO is issued, the Chief Engineer will notify the appropriate Branch Manager of the SWO to explain the severity of the situation and discuss future recourse should needed corrective actions remain incomplete.

Temporary Suspension of Work: The Engineer has the authority to suspend the work wholly or in part by written order for such periods, as he may deem necessary for any of the reason outlined in Section 108-7 of the Standard Specifications for Roads and Structures.
