

# SKIP the BIN

## TURN YOUR BATTERIES IN

**NEVER** place rechargeable batteries in recycling or trash carts.

Rechargeable batteries cause fires in sanitation trucks, recycling facilities, and landfills.

These types of everyday items must be properly handled through a drop-off program.

Find a retail drop-off location near you.  
Scan the QR code or visit:  
[batterynetwork.org/locator](http://batterynetwork.org/locator)

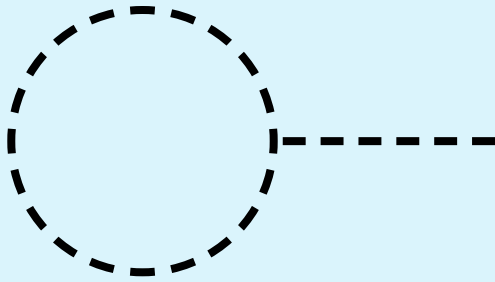

Or, bring your old rechargeable batteries to <insert local HHW Site and/or convenience center information>.
