SKIP the BIN!

TURN YOUR BATTERIES IN!

NEVER place rechargeable batteries in recycling or trash carts.

Rechargeable batteries cause fires in sanitation trucks, recycling facilities, and landfills.

These everyday items must be properly handled through a drop-off program.

Find a retail drop-off location near you.
Scan the QR code or visit:
batterynetwork.org/locator

Or, bring your old rechargeable batteries to <insert local HHW Site and/or convenience center information>.
