COVID-19 Response

- Customers still require some support for parts
 - GM, Ford, Chrysler, Toyota, Honda, etc
- Reduced production by near 75%
- Machine shutdowns -
- Personnel schedules – 3/2, staggered shifts, RIFs

Post Event Power Restoration

- Surge Protectors at all Switchgears and Panels
 - Open switchgears, if possible
- Open disconnects at machines
- Start process equipment first
 - Boiler, Cooling Towers, Air Compressors (Inteliflow)
 - Have a contingency plan
- Evaluate high demand energy sources –
 - Inject Mold Machines
 - Start these singularly
