

Memorandum:

Subject: Section .0400 Declaratory Rulings.

Prepared by David Miller.

Date:

On page 3, line 32 to page 4, line 2, the committee requested a comparison be made between the proposed insertion and the Erosion and Sediment control rules.

This concerns Section 0.0400 - Decoration Rules and are rules that will have to adopt to come into compliance with G.S. 150. These rules do not currently exist and should be addressed in Phase 2 portion of the rule making process.

Staff recommend that this request be made in Phase Two of the rule making process.
