

Access DEQ

Brownfields

Brownfields Stakeholder Meeting
February 7, 2024
Billy Hylton | Elizabeth Orlando

Overview

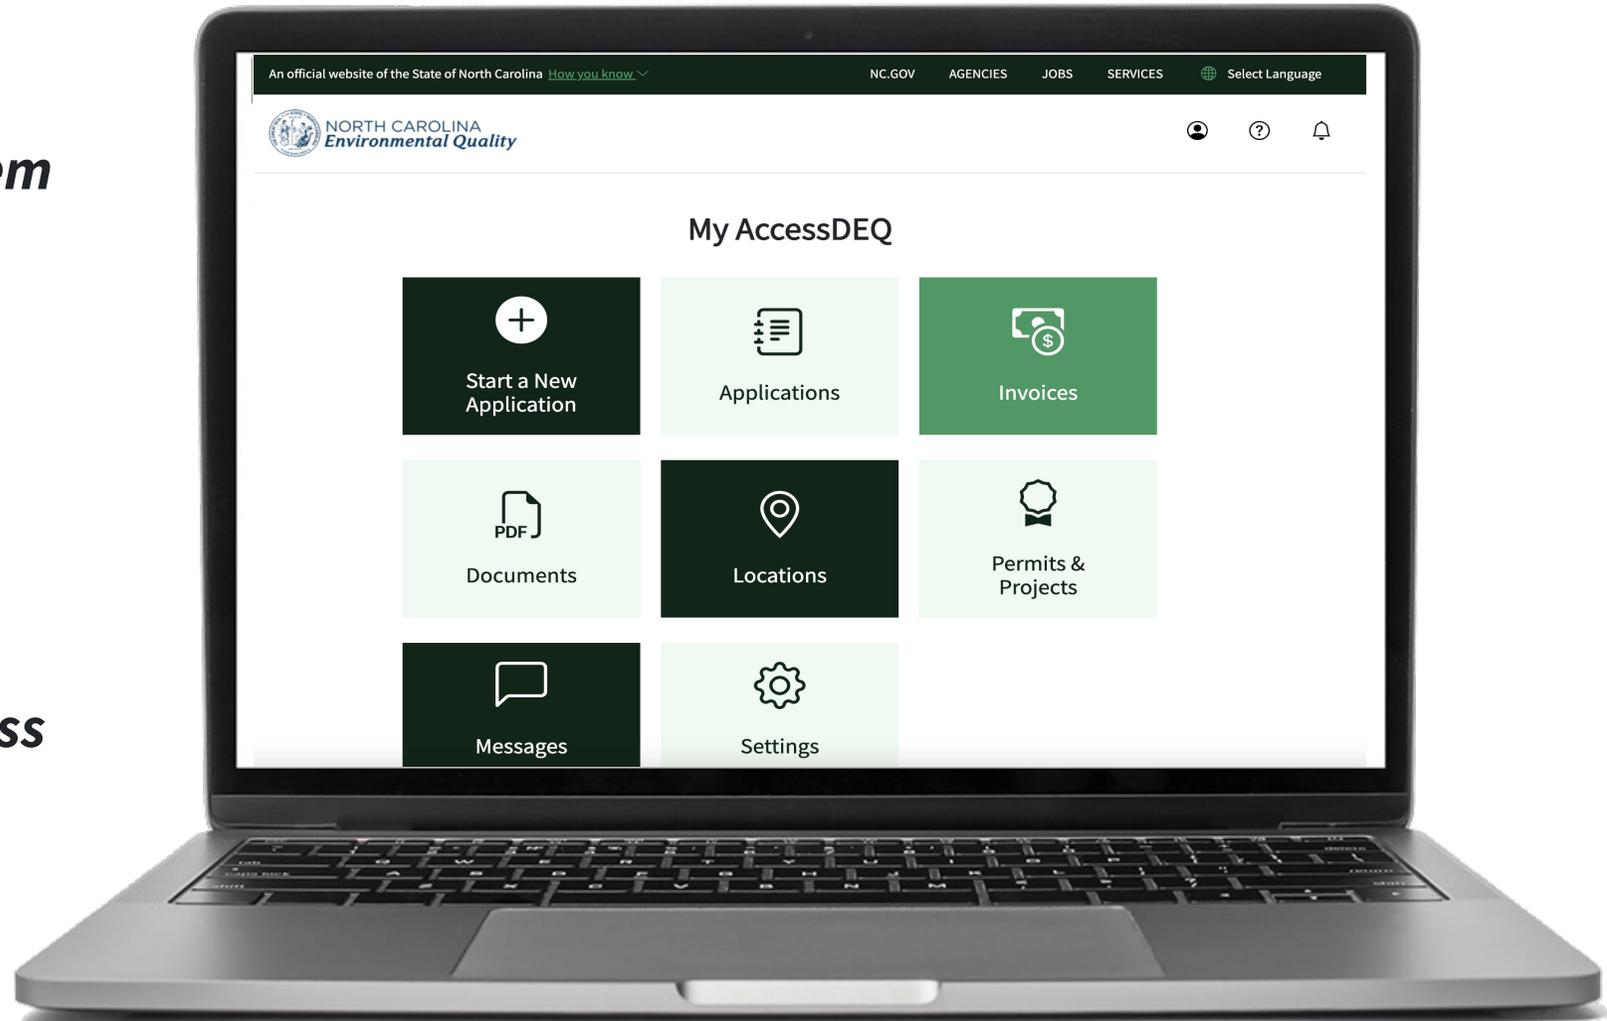

- Over 150 types of permits, certificates, registrations, agreements, and licenses that vary in complexity, scope and processing time.
- More than 39,000 issued by five regulatory divisions in 2021.
- Permits span areas such as Air Quality; Coastal Management; Energy, Mineral and Land Resources; Waste Management; and Water Resources.

Goal

Develop a robust online system for applying, tracking and paying for DEQ permits, agreements, licenses and certificates.

The program seeks to streamline the process, modernize tracking and access to permitting actions and improve transparency.

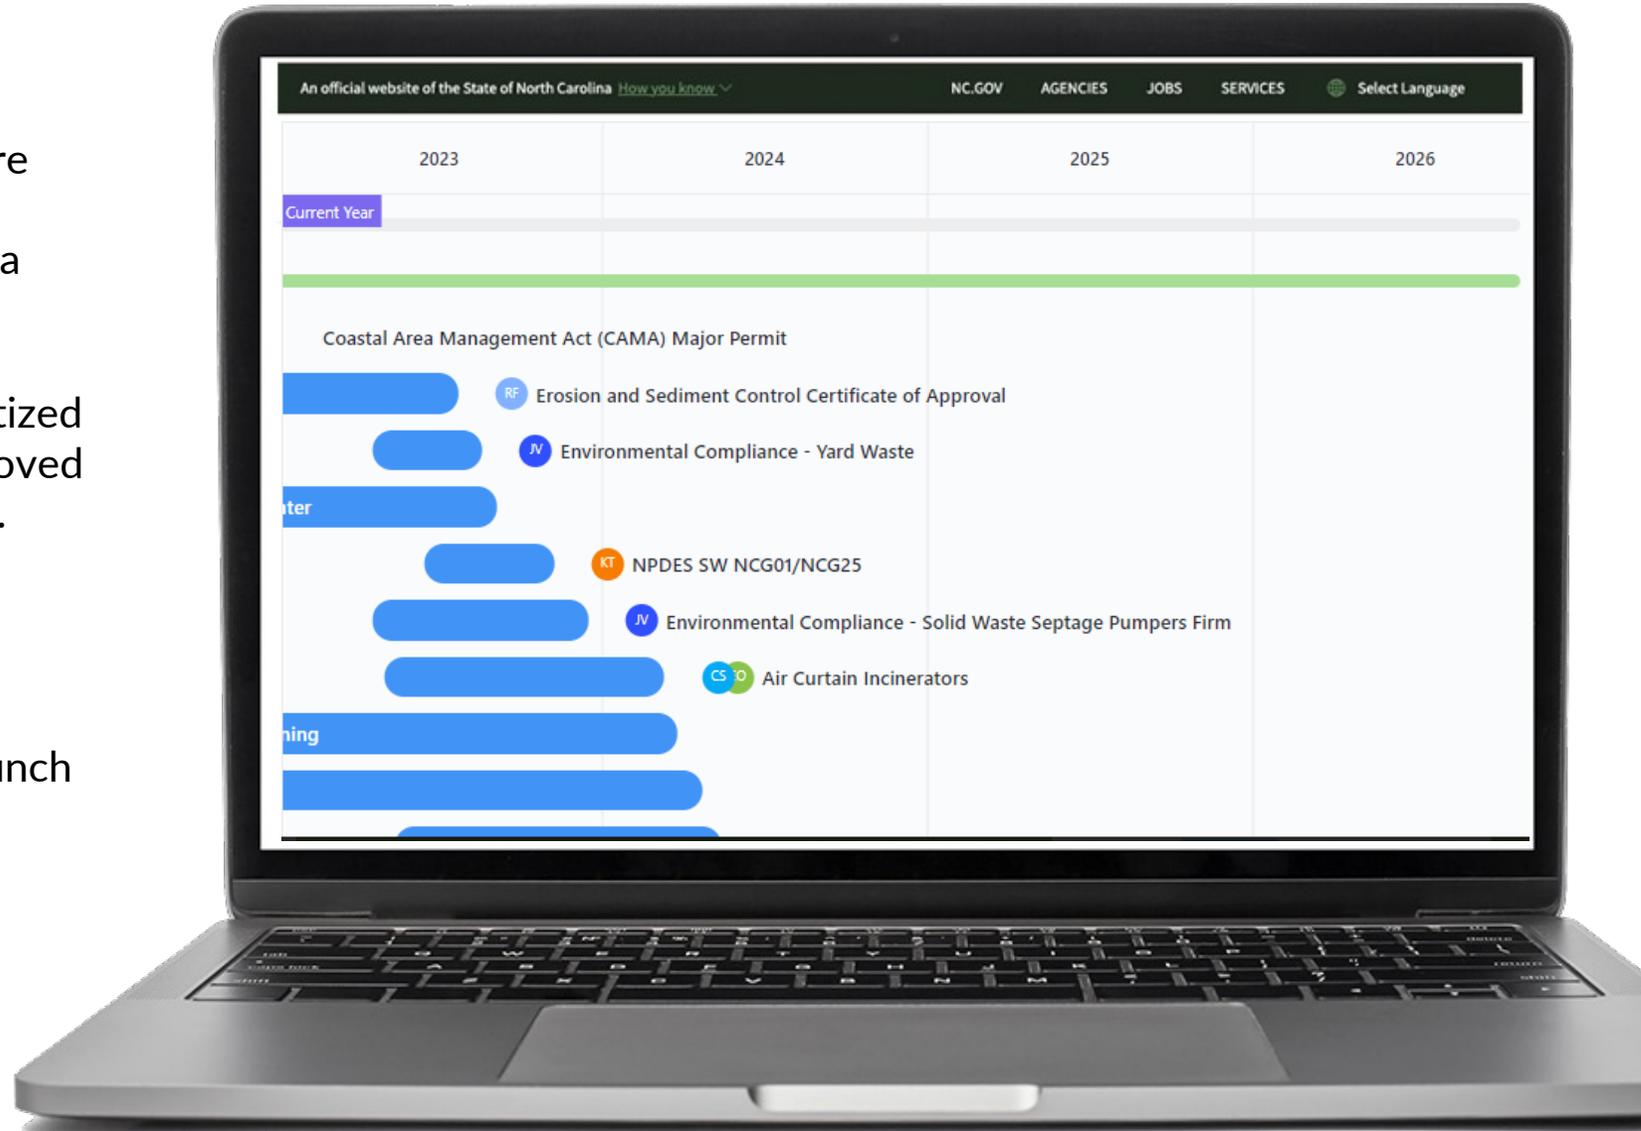

Transformation Elements

Status

- Legislative funding enabled us to hire Project Managers, Solution Developers, Business Analysts, Data Architects, and others.
- DEQ leadership established a prioritized schedule of DEQ programs to be moved through the transformation journey.
- Coastal Management applications (CAMA Major) live – January '23
- Erosion & Sediment Control soft launch – October '23
- **Next in line... Brownfields!**
