

Inactive Hazardous Sites Branch
CTS of Asheville Summary
(NCD003149556/Former APS# 20358)
Mills Gap Road, Buncombe County

This is the July, 2010 update of activities directed by the N.C. Department of Environment and Natural Resources that CTS is performing at the Mills Gap Road site in Asheville.

July 2010 Update:

NCDENR received the revised Phase II workplan (Phase II Remedial Investigation Work Plan) on June 23. All of the concerns that NCDENR had with the first version were addressed and the acceptance of the work plan will be mailed by NCDENR on July 14. Based on the timeline included in the Work Plan, field activities should resume on the site no later than late August 2010.
