

FACT SHEET

North Carolina State University Waste Management Facility (WMF)

2620 Wolf Village Way

Raleigh, North Carolina 27606

EPA ID # NCD000830737

A Draft Renewal Permit has been prepared for the NCSU to continue to store hazardous waste at the Waste Management Facility under the Federal Resource Conservation and Recovery Act (RCRA). North Carolina has been authorized by the United States Environmental Protection Agency to administer RCRA including the Hazardous and Solid Waste Amendments (HSWA) of 1984. The State has determined that NCSU's proposed activities as identified in the renewal application satisfies the full intent of the North Carolina Hazardous Waste Management Rules and Solid Waste Management Act as amended. When finalized this draft permit issued by the State of North Carolina will constitute a complete permit under the Federal Resource Conservation and Recovery Act.

NCSU will continue management of hazardous waste in container storage rooms and areas located inside the WMF building as regulated by the renewal permit. Wastes of nearly every type are generated in various laboratories, shops, and other work areas associated with the University. Hazardous wastes are consolidated and stored at the WMF until ready for off-site shipment.

All waste storage areas are provided with proper secondary containment. The maximum hazardous waste inventory allowed by the permit is 6,500 gallons. NCSU is required by the permit to have a contingency plan and safety and emergency procedures in place. The permittee has provided the contingency plan to local emergency response agencies.

The North Carolina Hazardous Waste Management Rules require that the public be given a forty-five (45) day period to comment on the draft permit. This forty-five (45) day period will commence on June 30, 2025 and end August 14, 2025. The draft permit can be found online at the following location:
<https://deq.nc.gov/public-notices-hearings>

All data submitted by the applicant is part of the administrative record. Files are accessible through the document management system at: <https://deq.nc.gov/about/divisions/waste-management/laserfiche>

The instructions to search for documents on the web portal are as follows:

- a. Select Laserfiche in middle of page
- b. Enter the public Laserfiche Weblink
- c. Select 'Search' in the upper left corner
- d. On the left ribbon under Customize Search select Template
- e. Under Template select WM
- f. Subdivision > Hazardous Waste
- g. Doc_Category > Facility
- h. Doc_Group > Permit (P)
- i. Program_ID > **NCD000830737**

Persons wishing to comment on either this permit or the proposed permit conditions or to object to the permit issuance should submit such comments in writing prior to August 14, 2025. All comments

received within the forty-five (45) day period will be considered before the final permit decision is made. Comments should be sent to:

Heather Standish, Hazardous Waste Section Chief
Division of Waste Management, NCDEQ
MSC 1646
Raleigh, NC 27699-1646

A public hearing to receive comments concerning the issuance of the proposed permit will be held Thursday August 7, 2025 at 12:00 pm, in Room 1210, of The North Carolina Department of Environmental Quality – Green Square Building (First Floor), located at 217 West Jones Street in Raleigh, NC. Attendees may submit a written statement for the official record in addition to their oral statement, or they may submit written comments in lieu of making an oral presentation. When a final permit decision is made to either issue, deny, or modify the draft permit, notice will be given to the applicants and to each person who has submitted written comments or requested notice of the final decision.

Anyone desiring additional information may contact Carl Utterback at the address listed above or at (919) 707-8200 or carl.utterback@deq.nc.gov
