

Appendix VI

Neuse River Basin Nonpoint Source Program Description and Contacts

Statewide Nonpoint Source Management Program Description

The North Carolina Nonpoint Source Management Program consists of a broad framework of federal, state and local resource and land management agencies. More than 2,000 individuals administer programs that are directly related to nonpoint source pollution management within the state. A range of responsibilities have been delegated to county or municipal programs including the authority to inspect and permit land clearing projects or septic system performance. In the field of agriculture, a well-established network of state and federal agricultural conservationists provide technical assistance and program support to individual farmers.

Staff in the DWQ Water Quality Section's Planning Branch lead the Nonpoint Source Management Program, working with various agencies to insure that program goals are incorporated into individual agencies' management plans. The goals include:

1. Coordinate implementation of state and federal initiatives addressing watershed protection and restoration.
2. Continue to target geographic areas and waterbodies for protection based upon best available information.
3. Strengthen and improve existing nonpoint source management programs.
4. Develop new programs that control nonpoint sources of pollution not addressed by existing programs.
5. Integrate the NPS Program with other state programs and management studies (e.g., Albemarle-Pamlico National Estuary Program).
6. Monitor the effectiveness of BMPs and management strategies, both for surface and groundwater quality.

Coordination between state agencies is achieved through reports in the *North Carolina Nonpoint Source Management Program Update*. Reports are intended to keep the program document current and develop a comprehensive assessment identifying the needs of each agency to meet the state nonpoint source program goals. Annual reports are developed to describe individual program priorities, accomplishments, significant challenges, issues yet to be addressed, and resource needs. A copy of the latest Annual Report (FY1998) is available online:

http://h2o.enr.state.nc.us/nps/nps_mp.htm.

The nature of nonpoint source pollution is such that involvement at the local level is imperative. Basinwide Water Quality Plans identify watersheds that are impaired by nonpoint sources of pollution. Identification, status reports and recommendations are intended to provide the best available information to local groups and agencies interested in improving water quality. The plans also make available information regarding federal, state and local water quality initiatives aimed at reducing or preventing nonpoint source pollution.

The following table is a comprehensive guide to contacts within the state's Nonpoint Source Management Program. For more information, contact Alan Clark at (919) 733-5083 ext. 570.

Appendix V Neuse River Basin Nonpoint Source Program Descriptions and Contacts

Agriculture			
USDA Natural Resources Conservation Service: Part of the US Department of Agriculture, formerly the Soil Conservation Service. Technical specialists certify waste management plans for animal operations; provide certification training for swine waste applicators; work with landowners on private lands to conserve natural resources, helping farmers and ranchers develop conservation systems unique to their land and needs; administer several federal agricultural cost share and incentive programs; provide assistance to rural and urban communities to reduce erosion, conserve and protect water, and solve other resource problems; conduct soil surveys; offer planning assistance for local landowners to install best management practices; and offer farmers technical assistance on wetlands identification.

Agriculture

Soil & Water Conservation Districts:

Boards and staff under the administration of the NC Soil and Water Conservation Commission (SWCC). Districts are responsible for: administering the *Agricultural Cost Share Program for Nonpoint Source Pollution Control* at the county level; identifying areas needing soil and/or water conservation treatment; allocating cost share resources; signing cost share contracts with landowners; providing technical assistance for the planning and implementation of BMPs; and encouraging the use of appropriate BMPs to protect water quality.

Division of Soil and Water Conservation:

State agency that administers the *Agricultural Cost Share Program for Nonpoint Source Pollution Control* (ACSP). Allocates ACSP funds to the Soil & Water Conservation Districts; and provides administrative and technical assistance related to soil science and engineering. Distributes Wetlands Inventory maps for a small fee.

Central Office	David Williams	919-715-6110	512 North Salisbury Street, Raleigh, NC 27626 david.williams@ncmail.net
Raleigh Region	Margaret O'Keefe	919-571-4700	3800 Barrett Drive, Suite 101 or 1628 Mail Service Center, Raleigh, NC 27699-1628 margaret.okeefe@ncmail.net
Washington Region	Pat Hooper	252-946-6481	943 Washington Square, Washington, NC 27889 pat.hooper@ncmail.net

NCDA Regional Agronomists:

The NC Department of Agriculture technical specialists: certify waste management plans for animal operations; provide certification training for swine waste applicators; track, monitor and account for use of nutrients on agricultural lands; operate the state *Pesticide Disposal Program*; and enforce the state pesticide handling and application laws with farmers.

Central Office	Tom Ellis	919-733-7125	Post Office Box 27647, Raleigh, NC 27611

General Water Quality

DWQ Water Quality Section:

Coordinate the numerous nonpoint source programs carried out by many agencies; coordinate the French Broad and Neuse River Nutrient Sensitive Waters Strategies; administer the Section 319 grants program statewide; conduct stormwater permitting; model water quality; conduct water quality monitoring; perform wetlands permitting; conduct animal operation permitting and enforcement; and conduct water quality classifications and standards activities.

NPS Planning	Alan Clark	919-733-5083 ext. 570	512 North Salisbury Street, or 1617 Mail Service Center Raleigh, NC 27699-1617
Urban Stormwater	Bradley Bennett	919-733-5083 ext. 525	512 North Salisbury Street, or 1617 Mail Service Center, Raleigh, NC 27699
Modeling	Michelle Woolfolk	919-733-5083 ext. 505	512 North Salisbury Street, or 1617 Mail Service Center Raleigh, NC 27699-1617
Monitoring	Jimmie Overton	919-733-9960 ext. 204	4401 Reedy Creek Road, or 1621 Mail Service Center Raleigh, NC 27699-1621
Wetlands	John Dorney	919-733-1786	4401 Reedy Creek Road, or 1621 Mail Service Center, Raleigh, NC 27699-1621
Animal Operations	Dennis Ramsey	919-733-5083 ext. 528	512 North Salisbury Street, or 1617 Mail Service Center, Raleigh, NC 27699-1617
Classifications and Standards	Tom Reeder	919-733-5083 ext. 557	512 North Salisbury Street, or 1617 Mail Service Center Raleigh, NC 27699-1617

DWQ Regional Offices:

Conduct permitting and enforcement fieldwork on point sources, stormwater, wetlands and animal operations; conduct enforcement on water quality violations of any kind; and perform ambient water quality monitoring.

Raleigh Region	Ken Schuster	919-571-4700	3800 Barrett Drive or 1628 Mail Service Center, Raleigh, NC 27699-1628
Washington Region	Jim Mulligan	252-946-6481	943 Washington Square Mall, Washington, NC 27889

Wildlife Resources Commission:

To manage, restore, develop, cultivate, conserve, protect and regulate the wildlife resources of the state; and to administer the laws enacted by the General Assembly relating to game, game and non-game freshwater fishes, and other wildlife resources in a sound, constructive, comprehensive, continuing and economical manner.

Central Office	Shannon Deaton	919-733-3633, ext. 283	512 North Salisbury Street, or 1721 Mail Service Center, Raleigh, NC 27699-1721 deatonsl@ncmail.wildlife.state.nc.us
----------------	----------------	---------------------------	---

US Army Corps of Engineers:

Responsible for: investigating, developing and maintaining the nation's water and related environmental resources; constructing and operating projects for navigation, flood control, major drainage, shore and beach restoration and protection; hydropower development; water supply; water quality control, fish and wildlife conservation and enhancement, and outdoor recreation; responding to emergency relief activities directed by other federal agencies; and administering laws for the protection and preservation of navigable waters, emergency flood control and shore protection. Responsible for wetlands and 404 Federal Permits.

Ask for the project manager covering your county.

Wilmington Field Office	Keith Harris, Chief	910-251-4511	69 Darlington Avenue, Wilmington, NC or Post Office Box 1890, Wilmington, NC 28402-1890
Raleigh Field Office	Ken Jolly, Chief	919-876-8441 ext.22	6508 Falls of the Neuse Road, Suite 120, Raleigh, NC 27615

General Water Quality			
DWQ Groundwater Section: Groundwater classifications and standards; enforcement of groundwater quality protection standards and cleanup requirements; review of permits for wastes discharged to groundwater; issuance of well construction permits; underground injection control; administration of the underground storage tank (UST) program (including the UST Trust Funds); well head protection program development; and ambient groundwater monitoring.			
Central Office	Carl Bailey	919-715-6169	2728 Capital Boulevard or Mail Service Center 1636, Raleigh, NC 27699-1636
Raleigh Region	Jay Zimmerman	919-571-4700 ext. 244	3800 Barrett Drive, Raleigh, NC 27609
Washington Region	Willie Hardison	252-946-6481 ext. 335	943 Washington Square Mall, Washington, NC 27889
Solid Waste			
DENR Division of Waste Management: Management of solid waste in a way that protects public health and the environment. The Division includes three sections and one program – Hazardous Waste, Solid Waste, Superfund and the Resident Inspectors program.			
Central Office	Brad Atkinson	919-733-0692	401 Oberlin Road, Suite 150, Raleigh, NC 27605
On-Site Wastewater Treatment			
Division of Environmental Health and County Health Departments: Safeguard life, promote human health, and protect the environment through the practice of modern environmental health science, the use of technology, rules, public education, and above all, dedication to the public trust. Services include: • Training of and delegation of authority to local environmental health specialists concerning on-site wastewater. • Engineering review of plans and specifications for wastewater systems 3,000 gallons or larger and industrial process wastewater systems designed to discharge below the ground surface. • Technical assistance to local health departments, other state agencies, and industry on soil suitability and other site considerations for on-site wastewater systems.			
Central Office	Steve Steinbeck, Onsite Wastewater Supervisor	919-715-3273	2728 Capital Boulevard, Raleigh, NC 27604 steve.steinbeck@ncmail.net
Raleigh Region	Vacant, Onsite Wastewater Supervisor	919-571-4700	3800 Barrett Drive, Raleigh, NC 27609
Washington Region	Bob Uebler, Onsite Wastewater Supervisor	252-946-6481	943 Washington Square Mall, Washington, NC 27889 bob.uebler@ncmail.net
